**Communities
In Schools**

The Nation's Capital

CIS Mission Statement

Our mission is to surround students with a community of support, empowering them to stay in school and achieve in life.

OUR IMPACT

CIS currently operates directly inside 10 District of Columbia Public Schools (DCPS). Ms. Bailey is a full-time site coordinator at BMS. She connects students to community resources designed to help them succeed.

Our focus is on homelessness, bullying, attendance, and a lack of school supplies and clothes. We're in schools to spot the roadblocks in our students' way. We are also there to implement activities, events, and initiatives that create an environment filled with love.

Upcoming Initiatives that need community support
